

## 8th CAMS General Assembly | Copernicus

 2024-06-10 to 2024-06-13

 Belgium, Hybrid, Brussels

The Copernicus Atmosphere Monitoring Service (CAMS) is to hold its eighth General Assembly on 10-13 June 2024.

The event will consist of plenary sessions, cross-cutting discussions, side meetings and opportunities for networking, with speakers and panelists from leading international research institutes and service partner organisations.

Participation is free and open to anyone interested in attending, but priority will be given to CAMS contractors and users. Please note that this event is primarily a face-to-face event, online participation will be limited to livestreaming of the plenary sessions.

The registration deadline for the onsite attendance is 31 May 2024 (EOB). After this date, it will still be possible to register to watch the plenary sessions online.
